DIRECTIONS FOR USE

FIRST TREATMENT: Dilute 1 litre of product with 10 litres of water. Spray at a rate of 1 litre of diluted product per 5m² of surface area.

FOLLOW-UP TREATMENT OR LIGHT USAGE:

Dilute 1 litre of product with 20-30 litres of water. Spray at a rate of 1 litre of diluted product per 5m² of surface area. **APPLY WITH:** Knapsack sprayer, garden sprayer or watering can.

WHERE TO USE

Use Patio Bright on all external surfaces susceptible to contamination by algae, lichen, mosses and grime. Suitable for limestone, concrete, tarmac, timber, masonry, glass, plastic, gravel and synthetic construction materials.

WHEN TO USE

Use Patio Bright all year round. Results may be affected if rain falls within 48 hours and below 8°C. Avoid spraying during a heatwave.

SAFETY STATEMENT

If medical advice is needed, have product container or label to hand. Keep out of reach of children. Read label before use. Wash hands and exposed skin thoroughly after handling. Wear protective gloves/protective clothing / eye protection/face protection. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. Immediately call a doctor or POISON CENTRE.
